

## Green Environment Education European Network

**Newsletter**

**September 2014**

### GREEN is ...

a 3-year project funded by the Lifelong Learning Programme COMENIUS that seeks to promote the effective integration of climate change education into educational programmes and school curricula (climate literacy), on the one hand, and to promote creativity in science education, making science education more tangible, innovative and attractive to the youngest generation through a centrally important issue.

### What do GREEN Network members stand for?

#### Our Vision

*“Mitigation of global warming and promotion of climate change education”*

#### The GREEN Network wants to ...

- 🍃 create an effective and sustainable network among schools and institutions in Europe to promote climate change education.
- 🍃 make students and teachers in European schools become aware of the need to take actions against global warming.
- 🍃 create and supply teachers with sources and materials on climate change education that illustrate, support and give directions in teaching students
- 🍃 help teachers integrate climate change education into curriculum and extracurricular activities
- 🍃 help teachers and students come up with new and creative ways of networking on climate change education with other schools and institutions in Europe.

Vision and mission statement were elaborated during the transnational meeting in September 2014 carried out in Madrid, Spain, and finalised by a work group composed by a representative number of network members.

### GREEN Events

The GREEN Network offers various events aimed to both GREEN partners and other stakeholders interested in Climate Change Education (CCE).

The network is currently setting up a calendar of events that will be published soon on our website. These events will include

- 🍃 Webinars to inform interested participants about the state of the art of CCE;
- 🍃 1-day Forum, a web-based discussion, about a given topic of CCE and led by an expert which will wrap-up the discussion and drawn conclusion;
- 🍃 On-line conferences to reflect and discuss on a given topic related to CCE.
